

The New Firedome® LT™ Structural Helmets

Features:

The new Firedome® LT™ structural helmet is the result of 20 years of Bullard® engineering polymer technology and expertise. The Bullard® Tough LT™ comes standard with the all-new and innovative, patented Quick-Attach Blade System. That permits the firefighter to simply press on or off either a blade-mounted faceshield or blade-mounted goggle in seconds. This helmet can also be enhanced with a variety of optically correct visors, goggles, and neck protectors to equip your fire department with complete head, face and neck protection to meet your specific applications with the new compact design and lower center of gravity, the LT™.

Description:

- Compact
- Lightweight
- Innovative
- Low center of gravity
- Change from goggles to facemask in seconds
